1:1	MADR has more fields, allowing for greater clarity in what should be...	MADR has more fields, allowing for greater clarity in what should be present in each of them		MADR: More detailed structure; MADR: Clearer because it has more fields; MADR has more fields, allowing for greater clarity in what should be
1:4	I thought both fulfill their role equally	I thought both fulfill their role equally		Indifference between the models
01:28	No preference	No preference		Indifference between the models
01:29	No preference	No preference		Indifference between the models
02:09	I found the models clearer and more detailed about decisions	I found the models clearer and more detailed about decisions		MADR: Documents decision in a more detailed and complete way
02:17	and in my opinion it synthesizes MADR	and in my opinion it synthesizes MADR		Negative Evaluation; MADR
03:35	I believe that because MADR brings more topics it avoids ambiguity	I believe that because MADR brings more topics it avoids ambiguity		MADR: Avoids Ambiguity
03:36	It was leaner and straight to the point	It was leaner and straight to the point		Nygard: Objective structure/straight to the point
03:37	but one thing I liked about MADR was that it has a part that considers...	but one thing I liked about MADR was that it has a part that considers other alternatives before saying which one was chosen		MADR: Allows presenting alternative solutions; Nygard Improvements: Addition of fields for alternative solutions
03:38	It seems simpler and more objective.	It seems simpler and more objective.		Nygard: Objective structure/straight to the point
03:39	I thought that with Nygard it was faster and more objective	I thought that with Nygard it was faster and more objective		Nygard: Objective structure/straight to the point; Nygard: Speed in filling out the model
03:40	Nygard bothered me for concentrating a large amount of information...	Nygard bothered me for concentrating a large amount of information in the 'Context' field		Nygard: Fields with long answers bother participants; Nygard: Generic fields
03:41	I found it simpler and straight to the point of the problem	I found it simpler and straight to the point of the problem		Nygard: Objective structure/straight to the point
03:42	MADR seemed to give me more options to document details that I consider...	MADR seemed to give me more options to document details that I considered relevant to justify the decision and with fields that are easier to identify		MADR: More detailed structure; MADR: Ease in understanding the structure; MADR: More fields to justify the documented decision
03:43	I believe it was the one I used the most and this created ease of use! However...	I believe it was the one I used the most and this created ease of use! However, this model demonstrates clarity and ease of use.		MADR: Ease in understanding the structure
03:44	It's much simpler and goes straight to the point, besides being easy to understand	It's much simpler and goes straight to the point, besides being easy to understand		Nygard: Objective structure/straight to the point; Nygard: Ease in understanding the structure
03:45	Nygard seems to be simpler and objective to describe the arch...	Nygard seems to be simpler and objective to describe the architectural decision and makes it easier to understand about the decision.	Nygard seems to be simpler and objective to describe the arch	Nygard: Resulting documentation easy to understand due to being objective
03:46	I found Nygard more 'straight to the point', in a positive way, it brings...	I found Nygard more 'straight to the point', in a positive way, it brings the important points and makes the decision taken very clear, it is easier to fill out	I found Nygard more 'straight to the point', in a positive way, it brings	Nygard: Objective structure/straight to the point; Nygard: Ease in understanding the structure
03:47	However MADR ends up showing what the other options were being...	However MADR ends up showing what the other options were being taken into account, which is a positive point for it.	However MADR ends up showing what the other options were being	MADR: Allows presenting alternative solutions; Nygard Improvement: Addition of a field regarding alternative solutions
03:48	MADR explains better the reason for the decision, being clearer about it.	MADR explains better the reason for the decision, being clearer about it.		MADR explains better the reason for the decision, being clearer about it.
03:49	Due to the larger amount of information about the architectural decision, the...	Due to the larger amount of information about the architectural decision, MADR explains better the reason for the decision, being clearer about it.	Contradicts the hypothesis raised in participant 11 that mentions that smaller/simple/objective fields generate clearer documentation. Here, the participant justifies the clarity of the documented solution with the number of information pieces described in the model's structure.	MADR: More detailed structure
03:50	MADR, despite being longer and more laborious	MADR, despite being longer and more laborious		MADR: Laborious to document decision
03:51	can document in a more complete way the entire path until taking a...	can document in a more complete way the entire path until taking a specific decision.		MADR: Documents decision in a more detailed and complete way
03:52	I found it simpler and much more objective	I found it simpler and much more objective		Nygard: Objective structure/straight to the point; Nygard: Ease in understanding the structure
03:53	More clear and objective	More clear and objective		Nygard: Objective structure/straight to the point
03:54	MADR was the model that best used organizational dividers, with...	MADR was the model that best used organizational dividers, with a more complex structure and scheme.		MADR: Complex structure; MADR: More detailed structure
03:55	and also suggests a more detailed description of the decision to be taken	and also suggests a more detailed description of the decision to be taken		MADR: Documents decision in a more detailed and complete way
03:56	I believe that lack of details or ambiguity in a decision can lead to...	I believe that lack of details or ambiguity in a decision can lead to problems and in my view MADR offers the solution for this		I believe that lack of details or ambiguity in a decision can lead to
03:57	Nygard fails to inform certain things if compared to MADR	Nygard fails to inform certain things if compared to MADR		Nygard fails to inform certain things if compared to MADR
03:58	MADR - becomes a very exhaustive document	MADR - becomes a very exhaustive document		MADR: Laborious to document decision
03:59	It seems that with it you can convey more of the context of what was occurring...	It seems that with it you can convey more of the context of what was occurring at the moment with respect to the project		MADR: The documentation with this model offers a better project context at the moment of documentation
04:00	I liked the MADR model more because I felt more comfortable saying the reason why...	I liked the MADR model more because I felt more comfortable saying the reason for that choice, providing a better understanding to whoever reads it later.	I liked the MADR model more because I felt more comfortable saying the reason why	MADR: The documentation with this model offers a better project context at the moment of documentation; MADR: Documents decision in a more detailed and complete way
04:01	The greater ease of understanding the terms to be filled out made me...	The greater ease of understanding the terms to be filled out made me prefer Nygard, besides being more direct	The greater ease of understanding the terms to be filled out made me	Nygard: Objective structure/straight to the point; Nygard: Ease in understanding the structure
04:02	I found Nygard easier to use and in my opinion it synthesizes MADR...	I found Nygard easier to use and in my opinion it synthesizes MADR	I found Nygard easier to use and in my opinion it synthesizes MADR	Nygard: Ease in understanding the structure
04:03	I believe that the MADR model is better directed for group work...	I believe that the MADR model is better directed for group work, because it is as if it were meeting minutes where everything is noted, the considered options are written, who decided, why they decided and what are the pros and cons.	I believe that the MADR model is better directed for group work	MADR: Collaborative support
04:04	I thought that MADR asks for more details and specifications than Nygard...	I thought that MADR asks for more details and specifications than Nygard, this avoids generic instructions		MADR: Avoids Ambiguity
04:05	Although MADR explains each Field better, I found Nygard more objective...	Although MADR explains each Field better, I found Nygard more objective. It took me longer to understand the MADR structure.	Although MADR explains each Field better, I found Nygard more objective	MADR: Complex structure; MADR: More detailed structure; Nygard: Objective structure/straight to the point; Nygard: Ease in understanding the structure
04:06	Nygard is leaner and simpler than the MADR model, which can facilitate...	Nygard is leaner and simpler than the MADR model, which can facilitate understanding for laypeople	Nygard: Intuitive Structure; Nygard is leaner and simpler than the MADR model, which can facilitate	
04:07	Nygard is simpler and fulfills the objective of delivering decision information...	Nygard is simpler and fulfills the objective of delivering the information of the decision taken. I also found it more objective, by being simpler, it leaves less room for ambiguous or unnecessary information.	Nygard is simpler and fulfills the objective of delivering decision information	Nygard: Structure avoids ambiguities about the documented decision
04:08	I believe the outcome of the decision	I believe the outcome of the decision		The resulting documentations are very different
04:09	and the drivers that are in MADR	and the drivers that are in MADR		MADR: Decision drivers are a striking difference
04:10	The drivers and the considered options are the most striking differences...	The drivers and the considered options are the most striking differences, perhaps over time it would be interesting to have this documented as well as those involved in the decision.	MADR: Decision drivers are a striking difference; MADR: Allows presenting alternative solutions; The drivers and the considered options are the most striking differences	
04:11	MADR has many more variables and seemed more ambiguous.	MADR has many more variables and seemed more ambiguous.		MADR: A striking difference is the ambiguity that the model presents
04:12	Nygard has fewer spaces and less guidance, but it is faster to...	Nygard has fewer spaces and less guidance, but it is faster to fill out MADR, on the other hand, has more optional fields and is better divided, which leads it to be more time-consuming, but more objective		Nygard: Structure with little guidance; Nygard: Speed in filling out the model
04:13	MADR, on the other hand, has more optional fields and is better divided...	MADR, on the other hand, has more optional fields and is better divided...		MADR: The structure presents optional fields; MADR: Takes more time to document the decision
04:14	Amount of Fields and Clarity about what each represents	Amount of Fields and Clarity about what each represents		Striking difference between the models: Number of fields
04:15	Decision drivers were the most striking, as being able to justify...	Decision drivers were the most striking, as being able to justify the decision taken with more detail and clarity is important so that there are no doubts or questions, saving time and effort in explaining.	MADR: Decision drivers are a striking difference; Decision drivers were the most striking, as being able to justify	
04:16	Nygard has only the most important information, while MADR...	Nygard has only the most important information, while MADR has more details about those involved in the decision and the options raised		Nygard has only the most important information, while MADR
04:17	MADR has many more fields to describe. In it, it is also necessary...	MADR has many more fields to describe. In it, it is also necessary to describe the evaluated options and a justification for the decision taken		Striking difference between the models: Number of fields
04:18	Indeed this part of the considered options, one shows the full range of...	Indeed this part of the considered options, one shows the full range of possibilities that could have been chosen		MADR: Allows presenting alternative solutions
04:19	The number of existing topics in each model.	The number of existing topics in each model.		Striking difference between the models: Number of fields
04:20	It's as if Nygard summarized MADR for those who were short on time to read...	It's as if Nygard summarized MADR for those who were short on time to read		It's as if Nygard summarized MADR for those who were short on time to read

04:21	Nygard requires fewer details and description than MADR, even having the...	Nygard requires fewer details and description than MADR, even having the same requirements such as context, decision, and consequences.		Nygard requires fewer details and description than MADR, even having the
04:22	I found Nygard more objective and understandable for those who do not master...	I found Nygard more objective and understandable for those who do not master architectural documentation		Nygard: Has an introductory structure for those who do not master architectural decision documentation
04:23	MADR has a great differentiator which is being able to visualize the options considered...	MADR has a great differentiator which is being able to visualize the options considered, thus remembering why a certain option was not chosen. Despite being more laborious, MADR manages to transmit more information for those who will check the documentation later		MADR: Allows presenting alternative solutions
04:24	Nygard is shorter, becoming less rigid than MADR, which I found stiff	Nygard is shorter, becoming less rigid than MADR, which I found stiff		Nygard: flexible structure
04:25	The 'Decision Drivers' option in the MADR model that allows visualizing...	The 'Decision Drivers' option in the MADR model that allows visualizing the reasons why a decision could be considered more viable	The 'Decision Drivers' option in the MADR model that allows visualizing;	
04:26	Nygard is simpler and more practical	Nygard is simpler and more practical	MADR: Decision drivers are a striking difference	
04:27	MADR is a bit redundant and Nygard is faster and simpler to fill...	MADR is a bit redundant and Nygard is faster and simpler to fill out		Nygard: Offers practicality
				MADR: Redundant structure
04:28	if Nygard had the considered options and who made this decision...	if Nygard had the considered options and who made this decision, it would be richer without gaining as much complexity	Nygard Improvement: Addition of a field regarding alternative solutions; if Nygard had the considered options and who made this decision	
04:29	However, Nygard with the deciders and options would be the best for me	However, Nygard with the deciders and options would be the best for me		Nygard Improvement: Addition of a field regarding decision-driving factors
04:30	Drivers can be interesting in some cases, such as...	Drivers can be interesting in some cases, such as if a decision was made but when certain company conditions are met it will be replaced		Drivers can be interesting in some cases, such as
04:31	I believe MADR is ideal for me, and if I were to change any...	I believe MADR is ideal for me, and if I were to change any of them it would be Nygard to make it similar to MADR		I believe MADR is ideal for me, and if I were to change any
04:32	Nygard is succinct and fast, both to read and to write, but...	Nygard is succinct and fast, both to read and to write, but I believe this makes it fail in clarity and justification. I believe it should have a field similar to MADR's 'Decision Drivers', or an appropriate field to justify the decision		Nygard Improvement: Addition of a field regarding decision-driving factors
04:33	I believe some steps like context and declaration and considered options...	I believe some steps like context and declaration and considered options are redundant in the MADR model		MADR Improvement: Reduction of some fields dedicated to documenting information related to the context to avoid redundancy
04:34	I think if Nygard had the history of evaluated options	I think if Nygard had the history of evaluated options		Nygard Improvement: Addition of a field regarding alternative solutions
04:35	If MADR didn't have the drivers, only the pros and cons, it would leave...	If MADR didn't have the drivers, only the pros and cons, it would leave both models better in terms of objectivity.		MADR Improvement: Removing the fields regarding decision-driving factors could improve the model's objectivity
04:36	add a field for 'In case the chosen option (decision made) could not...	add a field for 'In case the chosen option (decision made) could not be implemented for some reason, which one would be chosen? how would this impact the project? Based on this 'experience' what could be improved using the actual decision that was made?'		add a field for 'In case the chosen option (decision made) could not
04:37	The possibility of Nygard being less vague in decision information.	The possibility of Nygard being less vague in decision information.		Nygard Improvement: Being less ambiguous in the structure definition
04:38	Particularly I liked both and in small projects I believe...	Particularly I liked both and in small projects I believe I would use Nygard	Nygard: Better serves the documentation of Architectural Decisions in small projects; Particularly I liked both and in small projects I believe	
04:39	while in larger projects or even to present to someone...	while in larger projects or even to present the decision to someone important I would use MADR		MADR: Better serves documentation for management teams or larger projects
04:40	Both models could have an additional space (optional) for...	Both models could have an additional space (optional) for some unusual event, some observation that does not fit in the pre-defined parameters of both.		Both models could have an additional space (optional) for some
04:41	For Nygard I missed the Decision Drivers, because for me...	For Nygard I missed the Decision Drivers, because for me during decision making in a project, work, etc., the reasons that motivated such a decision must be exposed.		Nygard Improvement: Addition of a field regarding decision-driving factors
04:42	In MADR: at the Decision Outcome point it mentions indicating the...	In MADR: at the Decision Outcome point it mentions indicating the chosen option, justifying and also talking about the positive and negative consequences, but according to the given description it does not seem that the consequences are organized 'separately' from the decision outcome. However, in the model given as an example these components are shown as different fields.		MADR Improvement: Make the model documentation more explanatory
04:43	The two models are not drastically different, but I believe...	The two models are not drastically different, but I believe that (even if optional) adding details such as pros and cons of the options not chosen can end up polluting the ADR too much and taking away the objectivity of the document which is to explain the information of the decision that was accepted.	Adding details can end up polluting the ADR; The two models are not drastically different, but I believe	
04:44	I believe the context, because it doesn't have much restriction on how I...	I believe the context, because it doesn't have much restriction on how I would answer. The answers could be immense if I wasn't careful and didn't try to summarize		Difficulty in the documentation process with Nygard: The context field is too open for filling, allowing ambiguity
04:45	Context, because many things fit there, such as...	Context, because many things fit there, such as, for example, the possible decision options to be taken.		Difficulty in the documentation process with Nygard: The context field is too open for filling, allowing ambiguity
04:46	the decision was a bit complicated not to mix with the context, becoming...	the decision was a bit complicated not to mix with the context, becoming redundant.		Difficulty in the documentation process with Nygard: The context field is too open for filling, allowing ambiguity
04:47	Consequences! I believe that due to the large and vast possibility of responses...	Consequences! I believe that due to the large and vast possibility of responses in some cases! Necessary to find the ideal (positive and negative)		Difficulty in the documentation process with Nygard: The consequences field becomes difficult to fill when there are numerous possibilities of consequences in decision making
04:48	Context, as it is a section with a lot of information	Context, as it is a section with a lot of information		Difficulty in the documentation process with Nygard: The context field is too open for filling, allowing ambiguity
04:49	List the positive and negative consequences. The other parts are...	List the positive and negative consequences. The other parts are very simple, this one takes more work		Difficulty in the documentation process with Nygard: The consequences field becomes difficult to fill when there are numerous possibilities of consequences in decision making
04:50	The context. Because it was difficult to fill out about a scenario.	The context. Because it was difficult to fill out about a scenario.		Difficulty in the documentation process with Nygard: The context field is too open for filling, allowing ambiguity
04:51	The consequences one. Because you have to think about the whole team and the...	The consequences one. Because you have to think about the whole team and the consequences of that decision, it is not just for the client, but for those who will develop, who will analyze, who will question, etc.	The consequences one. Because you have to think about the whole team and the; Difficulty in the documentation process with Nygard: The consequences field becomes difficult to fill when there are numerous possibilities of consequences and this can or should involve other team members	
04:52	The decision, because I missed a topic where it was necessary to...	The decision, because I missed a topic where it was necessary to further develop the drivers that lead to the decision.		Difficulty in the documentation process with Nygard: The decision field because it does not make explicit if it is necessary to add the decision drivers
04:53	The decision, I was in doubt if it was just to put the decision itself or...	The decision, I was in doubt if it was just to put the decision itself or if it was necessary to explain the reason for the decision being made		Difficulty in the documentation process with Nygard: The decision field because it does not make explicit if it is necessary to add the decision drivers
04:54	Context, as it is an important exercise of imagination.	Context, as it is an important exercise of imagination.		Essential field in Nygard for documentation: The context field to describe the project moment regarding the decision taken
04:55	Consequences, to try to demonstrate the reason for that decision.	Consequences, to try to demonstrate the reason for that decision.		Essential field in Nygard for documentation: The consequence field represents the decision trade-offs
04:56	The one about consequences, as it shows the positive and negative points of the...	The one about consequences, as it shows the positive and negative points of the decision that was taken.		Essential field in Nygard for documentation: The consequence field represents the decision trade-offs
04:57	Context, it is always important to know well the environment you will deal with...	Context, it is always important to know well the environment you will deal with before solving the problem.		Essential field in Nygard for documentation: The context field to describe the project moment regarding the decision taken
04:58	It's so lean that it seems I'm forgetting something	It's so lean that it seems I'm forgetting something		Nygard Adoption Barriers: The simple structure can generate an impression that the decision documentation is incomplete
04:59	What I could answer was very loose, I wanted more guidance/restrictions	What I could answer was very loose, I wanted more guidance/restrictions		Nygard Adoption Barriers: The structure lacks guidance and restrictions
05:00	Not having some details that might be important such as the options...	Not having some details that might be important such as the options raised		Nygard Adoption Barriers: The simple structure can generate an impression that the decision documentation is incomplete

05:01		Some information ends up being left open, but I don't see this as...	Some information ends up being left open, but I don't see this as a problem IF the decision taking is very well explained		Nygard Adoption Barriers: The structure lacks guidance and restrictions
05:02		It being simpler and to me, it seems to be less flexible than MADR	It being simpler and to me, it seems to be less flexible than MADR		Nygard Adoption Barrier: little flexible structure
05:03		It is simple and direct and allows for a clearer description	It is simple and direct and allows for a clearer description		Nygard Adoption Motivators: The simple structure allows for a clear description of the decision
05:04		Being able to fill it out more quickly.	Being able to fill it out more quickly.		Nygard Adoption Motivators: Time for decision documentation
05:05		Ease of the model	Ease of the model		Nygard Adoption Motivators: Ease in understanding the model structure
05:06		From the clarity of the decision that will be taken, evidently showing...	From the clarity of the decision that will be taken, evidently showing the reason, the positive and negative points.		Nygard Adoption Motivators: Gives a clear perspective of the decision
05:07		Faster to do!	Faster to do!		Nygard Adoption Motivators: Time for decision documentation
05:08		Decision drivers, as it is a field that can end up being...	Decision drivers, as it is a field that can end up being redundant with the pros and cons if not well defined		Difficulty in documentation process with MADR: Structure with redundant fields; Difficulty in documentation process with MADR: Redundant fields such as drivers and pros and cons
05:09		Define the positive and negative points! Difficult to think and choose...	Define the positive and negative points! Difficult to think and choose the most important one		Difficulty in documentation process with MADR: Very broad fields; Difficulty in documentation process with MADR: Fields that lack better guidance
05:10		Context and Declaration, as I had difficulty in not repeating...	Context and Declaration, as I had difficulty in not repeating information and appearing redundant	Context and Declaration, as I had difficulty in not repeating; Difficulty in documentation process with MADR: Structure with redundant fields	
05:11		Write about the drivers, because I had to think a bit about...	Write about the drivers, because I had to think a bit about what were the advantages of a relational database compared to a non-relational database.		Difficulty in documentation process with MADR: Very broad fields
05:12		drivers, I think it confuses a bit with the context I think...	drivers, I think it confuses a bit with the context I think it would be better if it came after the considered options		Difficulty in documentation process with MADR: Very broad fields
05:13		In the decision outcome part: I was in doubt if consequences and...	In the decision outcome part: I was in doubt if consequences and the decision justification were the same field.		Difficulty in documentation process with MADR: Very broad fields
05:14		Pros and Cons, as they are things that have probably already been...	Pros and Cons, as they are things that have probably already been addressed in the decision outcome.	Difficulty in documentation process with MADR: Structure with redundant fields; Pros and Cons, as they are things that have probably already been addressed in the decision outcome.	
05:15		Options Considered; if the Context is self-explanatory, it becomes...	Options Considered; if the Context is self-explanatory, it becomes redundant	Difficulty in documentation process with MADR: Structure with redundant fields; Options Considered; if the Context is self-explanatory, it becomes redundant	
05:16		Decision drivers, I found it very technical.	Decision drivers, I found it very technical.		Difficulty in documentation process with MADR: There is a certain difficulty in writing the fields regarding decision drivers
05:17		Decision drivers, I found it a bit abstract	Decision drivers, I found it a bit abstract		Difficulty in documentation process with MADR: There is a certain difficulty in writing the fields regarding decision drivers
05:18		Decision drivers, because it encompasses several issues	Decision drivers, because it encompasses several issues		Difficulty in documentation process with MADR: Very broad fields; Difficulty in documentation process with MADR: Redundant fields such as drivers and pros and cons
05:19		considered options, because if one day we need to change that decision we have...	considered options, because if one day we need to change that decision we have guidance on what options to consider again		Essential field in MADR for documentation: Alternative solutions for the problem in the context since it offers more options for making other decisions
05:20		Considered options! Explains well the reason for the decision	Considered options! Explains well the reason for the decision		Essential field in MADR for documentation: Alternative solutions for the problem in the context since it offers more options for making other decisions
05:21		Considered options, as it gives a view of how the decision was	Considered options, as it gives a view of how the decision was		Essential field in MADR for documentation: Alternative solutions for the problem in the context since it offers more options for making other decisions
05:22		Considered options. Because it demonstrates that the team analyzed not just one...	Considered options. Because it demonstrates that the team analyzed not just one, but other solutions to solve the problem.		Essential field in MADR for documentation: Alternative solutions for the problem in the context since it offers more options for making other decisions
05:23		Decision Drivers; having a margin of what is needed helps more...	Decision Drivers; having a margin of what is needed helps more in the decision		Essential field in MADR for documentation: Drivers provide a complete understanding of what motivates the decision taken among other alternatives
05:24		Decision drivers, for the possibility of better justifying...	Decision drivers, for the possibility of better justifying what led to the decision making.		Essential field in MADR for documentation: Drivers provide a complete understanding of what motivates the decision taken among other alternatives
05:25		Decision drivers, because they show exactly where that choice...	Decision drivers, because they show exactly where that choice will solve the problem.		Essential field in MADR for documentation: Drivers provide a complete understanding of what motivates the decision taken among other alternatives
05:26		The decision outcome, it shows the future of the project and the directions...	The decision outcome, it shows the future of the project and the directions of the chosen decision.		Essential field in MADR for documentation: The decision outcome because it illustrates the impacts of decision making
05:27		It seems redundant and the descriptions can become subjective	It seems redundant and the descriptions can become subjective		MADR Adoption Barriers: Redundant structure
05:28		There is a lot of stuff that could be discarded here. For example, the...	There is a lot of stuff that could be discarded here. For example, the 'optional' fields.		MADR Adoption Barriers: Excess of optional fields
05:29		A model with many options that can end up a bit with the speed in...	A model with many options that can end up a bit with the speed in writing it	Nygard Adoption Barrier: Rigid documentation model; A model with many options that can end up a bit with the speed in	
05:30		Many questions and requirements for details, I believe because I am still...	Many questions and requirements for details, I believe because I am still a layman in the area of software architecture and project development.		Many questions and requirements for details, I believe because I am still
05:31		Many fields with somewhat unnecessary information. Drivers...	Many fields with somewhat unnecessary information. Decision drivers and the consequences presented in the Decision Outcome for me present the same types of information (consequences that justify decision making). The amount of additional information left me with the impression of a more polluted document than the other model.		Many fields with somewhat unnecessary information. Drivers
05:32		Once filled out, it doesn't give the feeling of emptiness or forgetting	Once filled out, it doesn't give the feeling of emptiness or forgetting	Once filled out, it doesn't give the feeling of emptiness or forgetting; MADR Adoption Motivators: Offers a complete decision result	
05:33		I felt that with this model it is possible to make a more detailed analysis...	I felt that with this model it is possible to make a more detailed analysis due to the fact that it is very detailed		MADR Adoption Motivators: Offers a detailed and explained result of the context and decision
05:34		I found the model easier to understand the motivations for the choice	I found the model easier to understand the motivations for the choice		MADR Adoption Motivators: Easier to understand what motivated the decision making
05:35		I found it very good and complete, I felt more confident when documenting...	I found it very good and complete, I felt more confident when documenting the project giving more context.	Nygard Adoption Motivators: Ease in understanding the model structure; MADR Adoption Motivators: Offers a complete decision result	
05:36		It took me longer to understand the MADR structure.	It took me longer to understand the MADR structure.		It took me longer to understand the MADR structure.
05:37		The possibility of expressing well the motivations and line of ideas that...	The possibility of expressing well the motivations and line of ideas that led to that decision		MADR Adoption Motivators: Structure allows expressing the decision drivers
05:38		MADR corrects this and creates a much more pleasant experience.	MADR corrects this and creates a much more pleasant experience.	MADR corrects this and creates a much more pleasant experience; MADR: Creates a much more pleasant experience	
4:1		It was leaner and straight to the point, but one thing I liked about MADR was...	It was leaner and straight to the point, but one thing I liked about MADR was that it has a part that considers other alternatives before saying which one was chosen.		Even choosing Nygard, the alternative solutions fields of MADR please
4:2		The drivers and the considered options are the most striking differences...	The drivers and the considered options are the most striking differences, perhaps over time it would be interesting to have this documented as well as those involved in the decision		MADR: Decision drivers possess valuable information in the long term
4:3		Decision Outcome. In ongoing projects, it is important that all...	Decision Outcome. In ongoing projects, it is important that all participants who may enter the project know the justifications for each architectural decision of the project.		MADR: Has fields that indicate the decision, justification, and impact of the choice
4:4		MADR seemed to give me more options to document details that I consider...	MADR seemed to give me more options to document details that I considered relevant to justify the decision and with fields that are easier to identify.	MADR: Self-explanatory fields document important details; MADR: Has fields that indicate the decision, justification, and impact of the choice	
4:5		Decision drivers were the most striking, as being able to justify...	Decision drivers were the most striking, as being able to justify the decision taken with more detail and clarity is important so that there are no doubts or questions, saving time and effort in explaining		MADR: With a larger number of fields, it is possible to detail aspects that save time and future efforts
4:6		Nygard is succinct and fast, both to read and to write, but...	Nygard is succinct and fast, both to read and to write, but I believe this makes it fail in clarity and justification	Participant with a more junior profile raises questions about the ADR resulting from Nygard failing in lack of clarity and justification for being succinct	Nygard: The succinct structure generates a lack of clarity and justification
4:7		None was very difficult, but the decision was a bit complicated not...	None was very difficult, but the decision was a bit complicated not to mix with the context, becoming redundant.		Nygard: Broad fields generate concern about providing redundant information

		Due to the larger amount of information about the architectural decision, MADR explains better the reason for the decision, being clearer about it.		
4:8		Due to the larger amount of information about the architectural decision, the...		MADR: The model explains the decision better due to the number of fields to be filled
4:9		The possibility of Nygard being less vague in decision information.		Nygard: The number of fields results in vague information about the decision
04:10		MADR, despite being longer and more laborious, manages to document in...		MADR: The model explains the decision better, but it is laborious
04:11		I believe that because MADR brings more topics it avoids ambiguity and...		MADR: Less ambiguous as it has more fields
04:12		I believe that lack of details or ambiguity in a decision can lead to...		I believe that lack of details or ambiguity in a decision can lead to
04:13		Nygard has fewer spaces and less guidance, but it is faster to...		Nygard: Faster to fill out because it has fewer fields
04:14		It's much simpler and goes straight to the point, besides being easy to understand		Nygard: fewer fields make the model easier to understand
04:15		Nygard has only the most important information, while MADR...		Nygard: Has all relevant decision information, while MADR brings not so relevant aspects
04:16		Nygard seems to be simpler and objective to describe the arch...		Nygard: More objective because it has fewer fields/is simple
04:17		I found Nygard more 'straight to the point', in a positive way, it brings...		Nygard: Describes the important points of the decision being clear and straight to the point
04:18		I found Nygard easier to use and in my opinion it synthesizes MADR.		Nygard: The fields synthesize the MADR structure
04:19		Although MADR explains each Field better, I found Nygard more objective...		MADR: Many fields generate difficulty in understanding the model structure
04:20		In MADR: at the Decision Outcome point it mentions indicating the...		MADR: Difficulty in understanding the structure
04:21		leaves less room for ambiguous or unnecessary information.		Nygard: Fewer fields generate less ambiguous documentation or with unnecessary information
04:22		Many fields with somewhat unnecessary information. Drivers...		MADR: Many fields generate a redundant structure and bring unnecessary information about the decision
04:23		The amount of additional information left me with the impression of a...		MADR: Many fields generate polluted documentation
04:24		I believe the context, because it doesn't have much restriction on how I...		Nygard: Context field has a very broad definition
04:25		Nygard bothered me for concentrating a large amount of information...		Nygard: Context field has a very broad definition; Nygard: Fields with long answers bother participants
04:26		Not having some details that might be important such as the options...		Nygard: Loses some details that may be important
04:27		MADR is a bit redundant and Nygard is faster and simpler to fill...		MADR: Has fields that can be important, but some can be redundant
04:28		It seems redundant and the descriptions can become subjective		MADR: Feeling of very subjective descriptions
04:29		Context and Declaration, as I had difficulty in not repeating...		MADR: The context field becomes redundant with the fields: Drivers, pros and cons, and considered options
04:30		MADR was the model that best used organizational dividers, with...		MADR: Structure with more fields adds complexity in understanding the model
04:31		simplicity, in the day-to-day I would prefer Nygard, since it takes...		Nygard: Documentation with the model takes less time due to the observed simplicity
04:32		Nygard when compared to the MADR model, is more direct and easier to...		Nygard: compared to MADR it is easier to use
04:33		Nygard is faster and simpler to fill out		Nygard is faster and simpler to fill out
04:34		It was faster.		Nygard: The speed in documenting with the model is one of its highlight aspects
04:35		Nygard is leaner and simpler than the MADR model, which can facilitate...		Nygard: People with little architecture knowledge can use the model
04:36		MADR, on the other hand, has more optional fields and is better divided...		MADR: Documentation with the model takes more time due to its specificity
04:37		Despite being more laborious, MADR manages to transmit more information...		MADR: More laborious filling generates more detailed documentation
04:38		Consequences. Perhaps it would be the most difficult to fill out for...		MADR: Filling out the model requires more technical knowledge
04:39		Particularly I liked both and in small projects I believe...		Nygard: Best option for small projects
04:40		while in larger projects or even to present to someone...		MADR: Best option for larger projects or presenting to more important people
04:41		Nygard had the considered options and who made this decision it would...		Nygard had the considered options and who made this decision it would
