

Research Feedback Questionnaire

Thank you for participating in this experiment. This questionnaire aims to gather your perceptions regarding the decision documentation templates you used. There are no right or wrong answers; we are interested in your honest opinion. Your responses will remain completely anonymous.

Overall, which of the templates did you prefer for the task of documenting architectural decisions?

- ☐ MADR
- ☐ Nygard
- ☐ I had no preference

Please justify your choice in the previous question.

What were the most notable differences you noticed between the Nygard and MADR templates?

Nygard

- **Title:** A short title for the decision.
- **Status:** Proposed, Accepted, Rejected, Deprecated. (For this activity, use "Accepted").
- **Context:** Describe the scenario and the problem to be solved.
- **Decision:** Clearly describe the technical decision made.
- **Consequences:** List the positive and negative consequences of the decision for the team, the project, and the architecture.

MADR

- **Title:** A short title for the problem solved and the applied solution.
- **Status, Deciders, Date (Optional):** Metadata about the current state of the decision, who participated, and when it was updated.
- **Context and Problem Statement:** Describe the scenario and the problem, preferably in two or three sentences. Can be articulated as a question.
- **Decision Drivers (Optional):** List the forces or concerns that guided the choice (e.g., performance, cost, security).
- **Considered Options:** List all alternatives that were evaluated to solve the problem.
- **Decision Outcome:** Indicate the chosen option and the main justification for the choice. Detail the positive and negative consequences.
- **Pros and Cons of Options (Optional):** For each alternative considered, detail the positive and negative points.

Which field or section of the Nygard template was the most difficult to understand or complete? Why?

Which field or section of the Nygard template did you find most useful for Architectural Documentation? Why?

What did you like least about your experience using the Nygard template?

What did you like most about your experience using the Nygard template?
